

# STUDENT ACCOMMODATION AT ITS BEST!

## HIGH END LIGHTING HELPING STUDENTS SUCCEED

**Client:** Aparto

**Location:** Cork Street, Dublin

**Objective:** To provide tailored lighting solutions to a modern accommodation

**Installer:** O'Neill's Mechanical & Electrical Services

Higher Education in the modern world needs to have innovative ways to live & study – these aparto style accommodations provide such a space that is conducive to productivity, socialising and so much more that the modern student needs today!

### The Client

Aparto is an Accommodation and Student Experience provider based in the UK, which was established in 2016. They currently have properties across the UK and Ireland, and an ambitious European expansion plan.

Aparto is more than just somewhere to stay, it's a vibrant student community with amazing events and the chance to meet like-minded students from around the world. With all study and tuition moving to online classrooms recently, many students, particularly international students and those who have already moved closer to campus are now working from their accommodations.

With developments like the Loom by aparto, at least these spaces can be comfortable, modern, and follow

all correct guidelines to keep students safe before returning to campus. Their stylish and modern rooms and social spaces create the perfect home away from home.

At The Loom Dublin, you are surrounded by the buzz of what the city has to offer for students, with vibrant local cafes and places to eat, the city centre and of course major universities including BIMM, National College of Art & Design, Royal College Of Surgeons and Trinity College.

The Loom features 166 modern ensuite rooms with a shared kitchen / living space, numerous rooftop terrace's, modern gym, cinema room and lots of inspiring social spaces to enjoy, relax and socialise in.

### The Project

In conjunction with their ongoing relationship with Walls construction, O'Neills Mechanical & Electrical were engaged to provide the electrical installation for this development.

Our Sligo branch, through their long-standing relationship with O'Neills, duly obliged to supply high end quality & innovative lighting solutions throughout this aparto accommodation.

On the back of this, bespoke lighting supply partners were engaged to provide high-end lighting solutions that tied in well with the student environment throughout the building

### Leading edge & Innovative Suppliers

Kelliher's Electrical and CT Electric only work with top quality lighting manufacturers and this can clearly be seen throughout this project.

As can be seen from the images, a complete lighting solution was supplied by CT Electric Sligo and expertly installed by O'Neill Mechanical & Electrical. It is through this relationship that projects like this can result in a happy client being presented with a complete electrical installation that will brilliantly benefit the end user, the student!

The lighting for this project encourages communal living, enhances workspaces and creates a welcoming atmosphere the minute you walk in the door.

Lighting not only makes areas look welcoming, contemporary and engaging but in this instance, it helps bring students together. By creating light filled areas conducive to conversation, education and relaxation, the lighting supplied for this project ticks all the right boxes and illustrates what Kelliher's and CT Electric can achieve.

If you want to see what can be achieved for your next commercial or residential project, then talk to us. We have lighting experts dotted all over the country and these are backed up by a lighting design team who are on hand to offer high value engineering solutions, delivered on time, within budget and to your satisfaction.
