

Hassle-free commercial charging

EVBox BusinessLine

The most user-friendly, proven and reliable business charging station

Why EVBox BusinessLine?

Durable

It's weatherproof with overcurrent and leakage detection and protection

Wifi and 4G

Allows you to receive automatic firmware updates and remote maintenance

Customizable branding

Showcase your company's commitment to e-mobility and increase your brand recognition

Universally Compatible

EVBox BusinessLine can deliver **up to 22 kW per connector** and is compatible with any electric car.

Smart and scalable

Connect up to 20 charging points per network with **load balancing** for efficient power consumption and energy costs reduction.

Easy and flexible installation

Can be installed indoors or outdoors, with 1 or 2 connectors, or mounted on a pole or wall

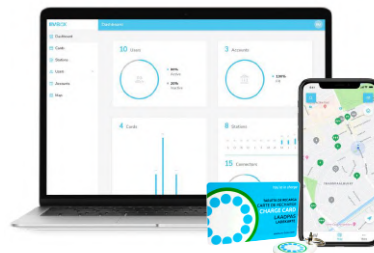

Perfect for workplaces, fleets, utilities, retail, hospitality, and commercial parking

Available in 3 colours

Intelligent and insightful software

The EVBox charge management software allows you **track and manage** charging stations, **earn revenue** by setting fees to monetize charging sessions, and manage invoicing and accounts

Charge and pay with RFID Card or the EVBox app
